TruSculpt Procedure

Recommended Pre & Post Care for truSculpt Treatments
For best results you must follow these instructions

Before your treatment:

- Excess hair may need to be shaved
- Notify the clinic with any changes to your health history or medications since your last appointment
- NO TANNING WITHIN 3 DAYS OF TruSculpt TREATMENT

After your treatment:

- Tenderness, redness and swelling may occur and resolve within 24 hours
- Multiple treatments may be required
- Notify the clinic if any of the following occur:
 - ❖ Blister, crusting, or skin burns
 - ❖ Tenderness, redness, or swelling persisting longer than 24 hours
 - ❖ Nodules or lumps in the treatment area
 - May develop up to 72 hours post treatment

NO TANNING WITHIN 3 DAYS OF A truSculpt TREATMENT
